What Sets Us Apart

Along with high test scores, small class sizes, and our Christian based values, Kids In Motion incorporates multiple subject areas in each activity. Every teacher is responsible for interdisciplinary units combining science and social studies with reading and math. Students are met with daily challenges that help them to grow into caring, responsible, faith-based individuals. Our goal is to teach life-long skills in character as well as academia that will accompany our students through their future endeavors.

Mission Statement

Develop the whole child in character, faith, physical fitness, and confidence in a non-disruptive environment toward life-long learning.
